Usability - Search Improvements

Article Number: 3482 | Rating: Unrated | Last Updated: Aug 23, 2022 at 2:31 PM

These enhancements are part of the release on December 2, 2019. The improvements to the student job search were driven by two factors:Â accessibility standards and direct student feedback.Â These changes were made consi in every screen where candidates can search (events, OCR interviews, workshops, etc.).Â The same improvements made for employers searching the resume books/resume databases. A summary of the changes: 1) Side-to-side scr for additional search categories has been eliminated. The "More Filters" tab can be clicked to expose the additional s categories. 2) Any search category configured as a Basic Search will appear above theÂ "More Filters" tab.Â The nu of Basic Search categories is essentially unlimited, but best practices recommend that it is limited to 3, and the most popular searches at most schools are: Keyword, Industry, Job Function.Â Â Schools can opt to include different cate 3) "Save My Filter" allows users to save their search and set it up as a job agent.Â This button was previously under "More..." button and many students were missing it.Â It has been made more prominent.Â 4) The system will no lon automatically search as a user completes any single search category.Â Student feedback told us that students expe select all of their criteria and tell the system when to search.Â This is handled by the new "Apply Filters" button. 5) T "Show" drop down was eliminated.Â The options there ("Show Expired Postings", "Include OCR" and "Show for my C Year") now show in-line with the basic search categories.Â Â 6) Company logos are now being displayed to student based on direct student feedback.Â Schools should be collecting these logos in the system, and can work with GradLeaders Support on how to best accomplish that.Â Company records that do not have a logo will simply display single letter initial, in place of the logo. *Outdated/Migrate* Â
