GradLeaders Career Center allows for candidates, if the permission is turned on, to forward jobs that they locate to friends via an email pop-up. The modal pop-up that the candidate receives, when forward to candidate is turned on, allows the to select from a list of students that are in the same program (PID) that they are in, which is sorted by First Name Last Name. A candidate choosing to forward to a classmate may also choose a classmate by 'quicktyping' their name in the 'To' field to locate their fellow classmate. The email is sent from the candidate who is currently logged in the system, and is logged under the activity log.
