Problem: School turned on OCR Requests this week for employers - they have a ton coming in and do not wish to be notified each time one comes in. They took out the text, as suggested, but they are still receiving the requests. Is there a setting or something to turn this off? **Likely Cause(s):** The New Employer OCR Request email template may contact text that is causing it to be sent out. **Resolution:** Remove the text from the email, ensuring that there are no blank spaces left. Once the email template is blank, it will not send out. **Program Setting:** n/a
