

What is a Widget?

Article Number: 417 | Rating: Unrated | Last Updated: Jan 2, 2019 at 3:06 PM

Widgets are useful information boxes that can be added to a dashboard. The functionality of each widget is a combination of hyperlinks, data fields, and general data. There are four different categories of Widgets. Each one being named based on who has access to use the Widgets in that particular category. The are: [Admin Widgets](#) - Available on the Admin Dashboard [Candidate Widgets](#) - Available on the Candidate Dashboard [Employer Widgets](#) - Available on the Employer Dashboard You can view more information on these widgets by clicking on the name of the category.
