

Why can't I delete a candidates resume?

Problem: A candidate accidentally uploaded the wrong resume and they want to delete the one on file, but they can't. I logged in as the candidate and I don't see a delete icon in the actions column as there should be, why can't I delete this resume? **Resolution:** The delete icon is only available if there is more than one resume on file. If the candidate only has one resume on file and you wanted to replace it with a different resume, then you would use the **Replace** button which is the paper/arrow icon in the actions widget.
